Tax Credit Programs

Program: Economic Development For A Growing Economy (IC 6-3.1-13)

Purpose:

The Economic Development for a Growing Economy ("EDGE") tax credit program provides a tax credit to companies creating net new jobs in Indiana. EDGE awards are calculated based on the number of jobs being created and the wages associated with those jobs. EDGE awards are made over a period of up to ten years, and companies must annually certify to IEDC their net new Indiana payroll in order to claim the credit. Employment figures included in this report represent the total number of employees anticipated to be hired over the term of the incentive agreement. The tax credit amounts included in this report represent the maximum value of incentives that can be achieved by the recipient under the terms of the incentive agreement. In the event that actual new employment differs from the employment level indicated in the incentive agreement, award amounts are adjusted on a pro-rata basis to reflect actual performance. In no event can the total benefit received by a recipient exceed the total award amount indicated in their incentive agreement.
